SEBASTIAN KOCH

koch.sebastian@mail.com, +49 171 3186665, Eduard-Spranger-Straße 57/1 72076 Tübingen

Masters Student Computer Science

University of Tübingen, BCAI, Cognitive Systems Lab

EDUCATION

M. Sc. — Apr 2020 – Mar 2022
Computer Science, *University of Tübingen, Tübingen Germany*
Computer Science Major with focus on machine learning, computer vision and robotics
Master-Thesis: 'Multi-View RGB-D Fusion for 6D Pose Estimation'
Current GPA: *1.3 (1.0 is the best)*

B. Eng. — Oct 2016 - Mar 2020
Computer Science, *Baden-Württemberg Cooperative State University, Stuttgart Germany*
Computer Science Major with additional automotive orientated courses
Bachelor-Thesis: 'Improvement of the robustness of a SLAM system with Computer Vision'
Thesis grade: *1.1*, GPA: *1.8 (1.0 is the best)*

Abitur — 2008 - 2016
Secondary School, *Georg Büchner Gymnasium Seelze, Hannover Germany*
GPA: *2.1 (1.0 is the best)*

EXPERIENCE

BCAI — Oct 2021 – Mar 2022
Master-Thesis (6D Pose Estimation), *Bosch Center for Artificial Intelligence, Tübingen*
- Development of a novel Multi-View RGB-D fusion architecture for 6D Pose Estimation
- Focus on improvements in keypoint-voting and novel fusion of RGB and depth with attention

University of Tübingen — Sep 2020 – Oct 2021
Research Assistant (Embedded Object Detection), *Cognitive Systems Lab, Tübingen*
- Researched novel approaches for real-time *object detection* in very high-resolution images
- Optimizing state-of-the-art *deep learning* models for *object detection* with *CUDA* and *TensorRT* to achieve real time performance on embedded GPUs

Bosch Group — Apr 2020 - Oct 2020
Working Student (SLAM, Computer Vision & Simulation), *Bosch Group (CR), Renningen*
- Developed a face detection system with *YOLO* directly integrated into *ROS*
- Responsible for synthetic data generation with *AirSim* for 3D object detection with *computer vision*

Bosch Group — Oct 2016 - Mar 2020
Cooperative Study Program, *Bosch Group, Stuttgart*
The Cooperative Study Program at Bosch provides the possibility to work on scientific projects in different departments at Bosch while pursuing ones Bachelor's degree

Oct 2019 - Jan 2020
Bachelor-Thesis (SLAM & Computer Vision), *Bosch Group (CC), Renningen*
- Researched how to make an existing *SLAM* system more robust regarding environmental changes with semantic understanding of the environment like object detection and semantic segmentation
- Extracted semantic information using *classical computer vision* algorithms and *deep learning*
- Trained various object detectors with *Tensorflow* to benchmark them on a small custom dataset

May 2019 - Sep 2019
Intern (Pedestrian Behavior Simulation), *Bosch Group (CC), Leonberg*
- Implemented a pedestrian simulation for behavior prediction with *machine learning*
- Used *PyTorch* for efficient simulation and integration in the *neural network* pipeline

May 2018 - Aug 2018
Intern Abroad (Hardware-in-the-Loop Simulation), *Bosch Group (Bosch Eng.), Novi USA*
- Designed automated testing functionalities in *MATLAB* and *Simulink* for faster software testing

Nov 2017 - Mar 2018
Intern (Filter Algorithm Prototyping), *Bosch Group (CC), Leonberg*
- Analyzed an interference problem of the new ultrasonic sensor system in the lab
- Used the conducted research to develop a filter algorithm for false-positive detections in *C++*

VOLUNTEERING

RoboCup Fed — Mar 2019 - present
Working as a volunteer at RoboCup Junior events (national and international)
Volunteers act as referees, supervisors and general helpers

HONORS & AWARDS

Bosch Group — Mar 2020 - present
Accepted into the Students@Bosch excellency program for students who excelled at previous Bosch internships. Guided by: Stefan Benz

University of Tübingen — Jan 2021
1st place of the yearly AI Chess Variant Competition conducted by the Cognitive Systems Lab of Professor Zell

MPI-IS · Mar 2021
3rd place of the Reinforcement Learning Hockey Competition of the Autonomous Learning Group

RoboCup Fed — 2011 - 2014
1st place at the RoboCup World Cup 2013 in Eindhoven in the *Rescue* competition
4th place at the RoboCup World Cup 2014 in João Pessoa in the *Rescue* competition

SKILLS

German	Python	C/C++	SLAM	Unix	Computer Vision
English	PyTorch	MATLAB	Robotics	ROS	Deep Learning

Updated October 2021
